Personal Profile

I am a dedicated Software Engineering student passionate about technology, problem-solving, and continuous learning. I thrive in diverse, collaborative environments and enjoy embracing new challenges. As an aspiring international student, I aim to broaden my academic and cultural perspectives, connect with people from different backgrounds, and grow into a confident, globally aware Software Engineer who can contribute meaningfully to society.

Education

B. Sc in Software Engineering
Daffodil International University, Savar, Dhaka
Average CGPA: **3.89**(up to 6th semester)

Higher Secondary Certificate (HSC)
Dhaka Residential Model College,Dhaka
GPA: **5.00**(Out of 5.00), **2023**

Secondary School Certificate (SSC)

Comilla Shikkha Board Model College, Comilla
GPA: **5.00**(out of 5.00), **2021**

Work Experience:

Computer Operator (Data Entry)
Neoventis Biotech (Dealer)
October 10, 2024 – December 15, 2024

Student Associate
Skil Jobs
October 1, 2026 – Present

Research Executive(Intern)
Skill Chefs
Agust 30,2026-present

Club Memberships & Leadership:

- **Active Member**, Software Engineering Club, Daffodil International University
- **Active Member**, Software Quality Assurance Club, Daffodil International University
- **Active Member**, Investment Club, Daffodil International University

---

Certifications, Trainings & Achievements:

- Global Model FAO Scholarship 2026
- World Future Energy Summit 2027 Selected
- DIU Code Trap Programming Contest, Spring-25 by DIU Software Engineering Club
- Future Leader Bootcamp: Social Business,Leadership & AI by SBSF
- Youth Employability Summit 2026 by DUCSU & Skill.jobs
- Program Leadership and Sponsorship Strategies for Future Leaders by HRDI & Skillup Club
- Virtual CommTECH Nusantara 2026: The Secret of Indonesia Urban Legends & Horror Story
- Jotajoti Jamboree by Bangladesh SCOUTS
- 10th Bangladesh & 3rd SAANSO Scout Jamboree
- Typing Titans by DIU SEC

Event Organization & Volunteer Experience:

- Senior Petrol Leader (SPL) ,Bangladesh Scouts
- Volunteer ,DIU Code Trap Programming Contest – Spring 2026
- Volunteer ,ICPC regional contest-December 07,2024
- Communication Skills Workshop

Languages

- English – Expert in reading, writing and speaking
- Bengali – Expert in reading, writing, and speaking
- Hindi- Expert in speaking, intermediate in Reading and Writing

Projects & Research Collaborations

•Projects:

1. **CampusNova – Student Collaboration Hub:** Designed and developed an **EdTech platform** that connects students, mentors, and alumni from different universities .it works on six major part(Academic,Research,Sports,Cultural,Skill and Carrier). **CampusNova - Cross-University Collaboration Hub**

2. **C-Detective(C Programming):** It is a termical based criminal detective system that can help to detect criminal by analysising the overall case file.

3. **Obstacle Avoiding Robot(Arduino):** It is an robot made up of 3 sensors (Light,Ultrasonic,IR) ,2 motors(DC & Servo) and other elements and it helps to detect obstacle and avoid the obstacle.

4.Neoventis Medicine is a digital healthcare platform designed to make accessing medicines and healthcare essentials more convenient for people in Bangladesh. Through its user-friendly website, customers can explore available medicines, view prices and stock information, add products to their cart, and access online ordering and order-tracking features.

Researchs:

1. **Early Prediction of Diabetes Risk Using Machine Learning:** Currently conducting research on developing a machine learning-based system to predict diabetes risk at an early stage using commonly available patient health data, with the aim of identifying high-risk individuals and supporting more timely screening and healthcare decisions.
2. **A Machine Learning Approach to Forecasting Demand, Supply, and Consumption Patterns:** Currently conducting research on developing a machine learning-based system to forecast demand, supply, and consumption patterns using historical and commonly available data, with the aim of identifying trends, improving prediction accuracy, and supporting more informed planning and decision-making.

Relevant Experience:

• **System Design & Logic Implementation:** Designed the structure of the system, implemented question banks, login/authentication mechanisms, and result calculation logic.

• **File Handling, Data Management & Problem Solving:** Used file handling in C to store user data, exam questions, and results securely and efficiently. Overcame challenges in data validation, input handling, and menu navigation to ensure smooth user experience and functionality.

Managing Programs

- **Leadership & Team Management**: Led and coordinated my Scout unit with 100

members,Arranged multiple camps and programs in Clubs,School,College,University.

- **Community Engagement**: Increased target participation by effectively communicating the goals and importance of the event.
- **Event Planning & Execution**: Organized and managed events, handling tasks such as scheduling activities, coordinating logistics, and ensuring everything ran smoothly to meet goals.
- **Problem-Solving**: Addressed unexpected challenges during the event, quickly finding solutions to ensure a successful outcome.

Key Skills

- **Team Leadership:** Proven ability to lead, motivate, and collaborate within diverse teams to achieve shared objectives in both academic and project-based settings.
- **Event Planning & Coordination:** Experienced in organizing and executing events with precision, demonstrating strong project management and logistical planning skills.
- **Communication & Interpersonal Skills:** Excellent verbal and written communication skills; adept at engaging with team members, stakeholders, and cross-functional groups.
- **Adaptability & Problem Solving:** Highly adaptable in dynamic environments with a strong aptitude for identifying issues and implementing effective solutions quickly.
- **Technical Proficiency:**
    - **Software Tools:** Proficient in Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Canva,claude,chatgpt,Kimi,google flow,vids,kling ai and others essential tools.
    - **Programming Knowledge:** *C, Java*

Interests:

- Passionate about continuous personal and professional growth, with a strong interest in innovation, community engagement, and lifelong learning.
- Eager to expand knowledge in software engineering, software quality, and emerging technologies to contribute to reliable and impactful solutions.
- Enjoy collaborating with diverse individuals and working on innovative, meaningful projects that create positive social and technological impact.
- Continuously seeking opportunities to strengthen both technical and interpersonal skills through research, teamwork, leadership, and practical experience.
- Interested in international academic environments that encourage cultural exchange, knowledge sharing, and collaboration with students and professionals from diverse backgrounds.
